Ayman Jabr

FULL-STACK WEB DEVELOPER

aymanjaber2012@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full-stack developer with 5+ years of experience building scalable Web Infrastructure solutions. Proven expertise in leading projects from concept to launch, architecting scalable infrastructures, and developing innovative AI-powered applications. Substantial experience in mentoring and managing small teams. Excels in highly fast-paced (XP) agile methodologies.

SKILLS

Front-End: Typescript, ESLint, TSDocs, Next, Angular, Redux, Ruby on Rails, CMS solutions, RAG, LangChain.
Back-End: Ruby on Rails, PostgreSQL, Nest, Supabase, GraphQL, RESTful APIs, Cloud Functions, AWS Integrations, Network Domain management.
Methodologies: Object Oriented Programming, Domain Driven Design, Test Driven Development.
Professional: Remote Pair-Programming, Technical Mentorship, Infrastructure Architecture

EXPERIENCE

AIYAH | Senior Frontend Developer   June 2025 – current
- Working on implementing rapid frontend developments/integrations in a highly-skilled, small and agile team, for a startup still in its early stages.
- Advising the direction, feasibility, and timeframes of possible changes/features.

DAITECK | Co-Founder & Lead Technical Developer   Feb 2024 – April 2025
- Pioneered the company's growth from a conceptual idea to an operational startup with a functioning architecture, cloud infrastructure, and a fully deployed website.
- Architected and engineered the entire technical stack, including the backend database, frontend services, and connections across multiple servers and domains.
- Drove key business decisions across finance, marketing, and UX; conducted designer and technical engineering interviews. Successfully onboarded new developers, enabling them to take ownership of the project.

EXTENDI Frontend React Developer   September 2021 – Jan 2024
- Implemented super-fast web solutions for international clients and government agencies, such as Lego, Pulsar (an AI-based social media mining platform), Estra(an Italian gas and electricity organization), and the Italian government.
- Worked using the Kanban methodology, with an international team of highly skilled developers in a mostly horizontal and interchangeable structure.
- Owned responsibility for entire projects as the solo developer from Extendi on these projects.

MICROVERSE Mentor (Volunteer)   February 2021 – September 2021
- Mentored junior web developers, providing technical support through discussion of industry-standard best practices and techniques to improve code.

EDUCATION

MICROVERSE   January 2021 – September 2021
Remote Full Stack Web Development Program, Full Time
- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.

UNIVERSITY OF JORDAN
Bachelor of Industrial Engineering   June 2016 – December 2020
- Wrote thesis on Fuzzy Inference Systems (AI department).
